

Dear Ladies

As the spread of COVID-19(Coronavirus) escalates rapidly, and in light of daily government guidance, the Council propose to introduce the following measures to ensure the health and safety of all members. These measures are not taken lightly but after considerable consultation we feel that they are necessary.

- The clubhouse will be closed from Wednesday 25th March. Please remove all clubs and trolleys by Tuesday 24th.
- The outside toilet will be available at your own risk. Please observe all hygiene guidance.
- All competitions will be cancelled until further notice.
- Social golf is cancelled
- Course is only open to members and season ticket holders in the meantime.
- The Open Day is cancelled. Anyone wanting to take up offer can do so from now by contacting club for paperwork to be sent out.
- The cups in the holes on green have been inverted so ball does not fall into hole so no need to touch inside of cup.
- There will be no supplementary cards.

Please , please still continue to play golf especially as the weather is so good at the moment and fresh air and exercise are so beneficial, but heed the guidance of numbers playing together and social distancing. Luckily it is a sport which can be played by a solitary person. Why not challenge the course instead of a partner some of the time?

Unfortunately, I shall not be able to be around in the meantime, as a close member of my family was taken into hospital and is now in quarantine at home from today for 2 weeks, but please contact me on ruarighsenga@aol.com or text 07765 389291 if you have any concerns or issues.

Kind regards and keep you and your family safe

Senga

(On behalf of the Council)
